MISSION STATEMENT

"It is the mission of Scitec to identify emerging voice/data communications needs in the marketplace, offer innovative, value-added products designed to meet those needs, and to support them globally. In doing so, we seek to establish and nurture long-term customer/partner relationships, ensuring that doing business with Scitec is a positive and fruitful experience unmatched by the competition."

Scitec is a leading manufacturer of intelligent telecom solutions for business, hospitality, healthcare, education, government, and residential applications. Products include more than 40 PBX/Centrex/IP-compatible feature phones, headset-ready telephones, line-powered Caller ID phones, emergency phones, single-use infection-control phones, and standard 2500 sets. Low-cost, feature-rich Scitec telephones are preferred by PBX switch manufacturers, dealers, and end-users globally. Why? Because smart Scitec phones provide practical solutions to many everyday telecom problems. From design and engineering, to marketing, sales, warehousing, invoicing, shipping and customer service, Scitec staff is on duty to help assure customer satisfaction before, during and after the sale. With world headquarters in Champaign-Urbana, Illinois, USA, one of the top ten high-tech centers in the world, Scitec is strategically positioned for telecommunications innovation and global sales, distribution and support.

MANUFACTURING CAPABILITIES

Scitec is a leading provider of innovative manufacturing solutions for a global marketplace. And because we own our manufacturing facilities, we are able to design and produce products to meet your unique specifications.

Redefining what is technologically feasible requires the flexibility to learn and adapt, and a heightened receptivity to new ideas.

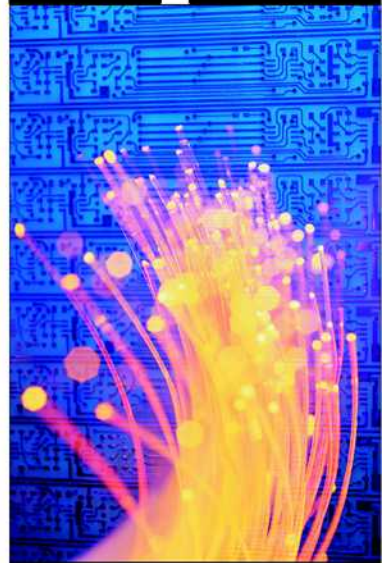

It also requires a corporate culture that rewards innovation. Product innovation continues to be a sustaining influence in the growth and success of Scitec. In fact, more than 70% of Scitec corporate sales are generated by products that are less than five years old. What are your product requirements? We offer:

- *300,000 square foot manufacturing facilities*
- *ISO-9001 certified*
- *120 full-time R&D personnel*
- *Trained manufacturing labor staff of 900*
- *\$100 million capital base capable of funding large OEM projects*

For additional information on Scitec OEM manufacturing solutions, call your Scitec representative at 800-451-4035, or or write manufacturing@scitecinc.com

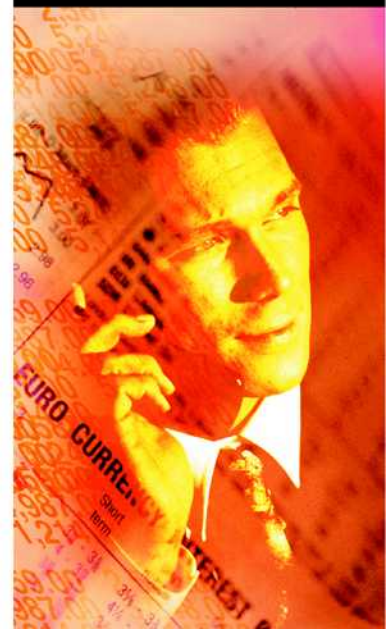

SALES AND CUSTOMER SUPPORT

Scitec staff and Authorized Scitec Resellers are available to help assure customer satisfaction before, during and after the sale. Our international call center is staffed with engineering, technical support, and customer service personnel to assist you. Call us at 800-451-4035 (in the U.S. and Canada) or 217-384-6041, or contact your Authorized Scitec Reseller.

marketplace.

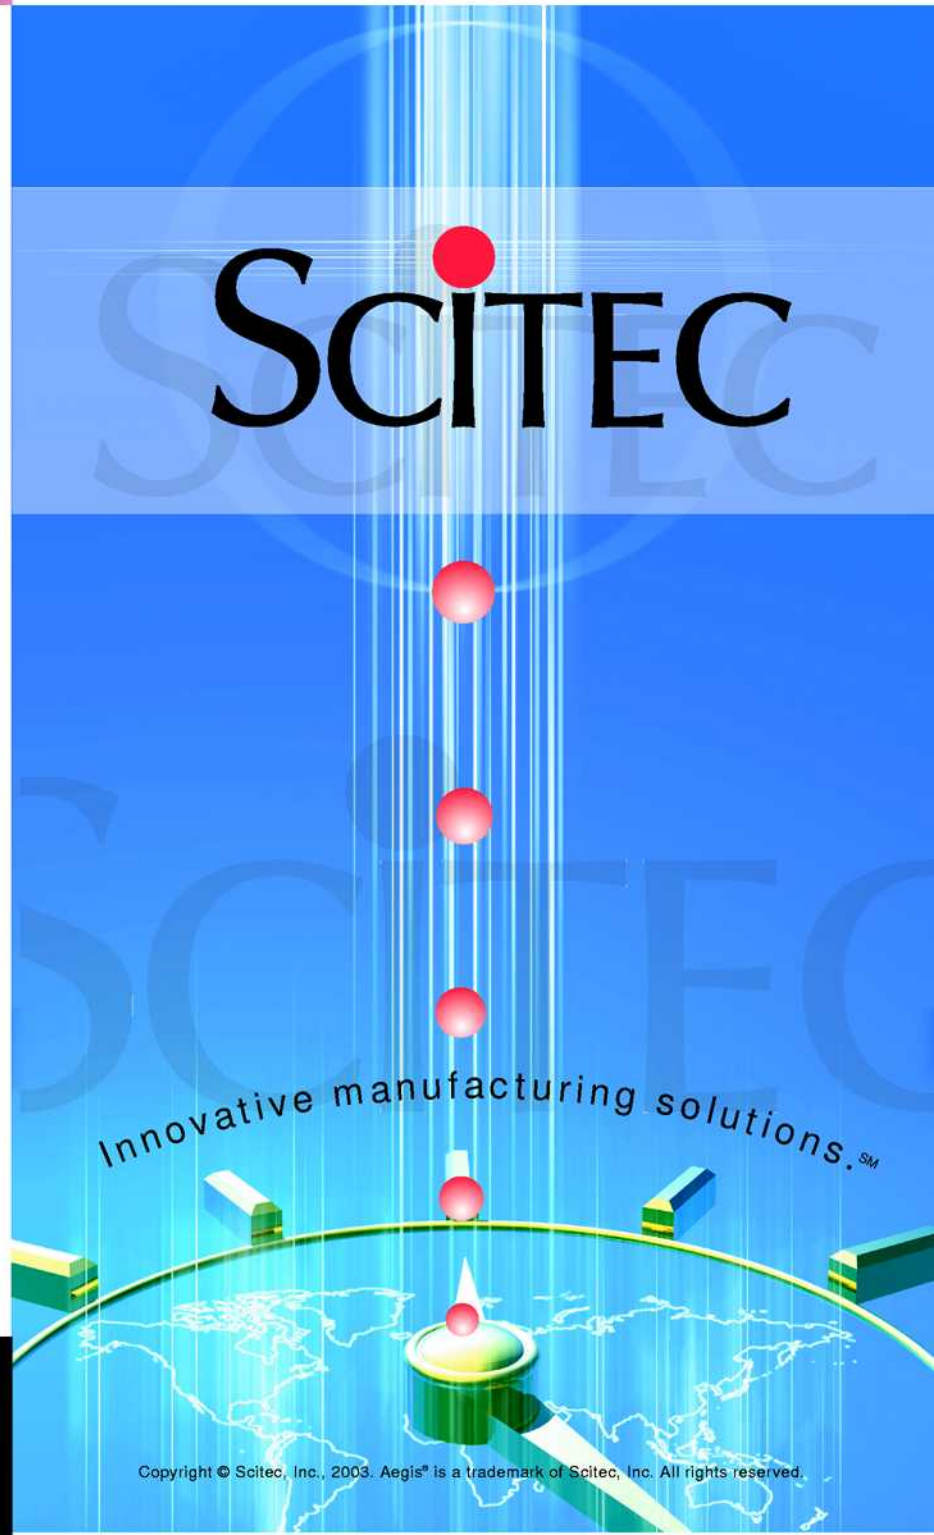

Q U A L I T Y C O N T R O L

Because we measure twice and cut once,
Scitec products have an established reputation
for quality and value in the marketplace.

- Rated the #1 telephone manufacturer in 2002
- 120 full-time research and development personnel
- 60 fully trained quality control personnel are assigned to monitor product quality during all production shifts, and to ensure strict adherence to ISO-9001 standards
- Each quality control staff member is required to complete ongoing quality control training and a rigid semi-annual re-certification examination
- Scitec quality control process for each production run involves a 19-step checklist, 53 test reports, 128 data sheets, and a 350-page report
- All products meet UL, FCC, ETL, and CE standards
- Component purchases limited to 150 core ISO-9001-certified suppliers
- All key components are 100% tested prior to assembly
- Use both state-of-the-art surface mount manufacturing technology and cost-efficient through-hole assembly techniques for best combined product quality and value
- Research and development partnerships with major universities and software firms
- Scitec Chief Technology Officer previously employed by a \$2.6 billion IT company to develop satellite technology

Scitec is a certified minority-owned business.
